Personal Statement

My passion for Software Development led me to consider a career change and join Northcoders Software Development boot camp. At Northcoders I gained valuable experience and skills to use throughout the full software lifecycle. I have the technical knowledge and skill-set to contribute to the production, testing and delivery of software applications including group projects. My primary goal is to keep developing in the latest development technologies and to grow my network.

Technical Skills

- Programming language: JavaScript
- Version control: Git, Github
- Frontend: React JS, React Native, HTML5, CSS3, Node.JS, Axios
- Backend: Node.JS, Express, Postgres, PgFormat, Firebase, Firestore
- Test Driven Development: Jest, Jest-sorted, SuperTest, Husky
- Deploying and hosting projects: Heroku, Netlify
- MVC design pattern

Work Experience

June 2022 – Sep 2022

Northcoders, Leeds
Junior Software Developer

Over the course of 13 weeks as a student of Northcoders, I learnt full-stack software development. The course served a practical and industry led curriculum and implementing a real world work place environment using Git, Github, test driven development, Trello ticket system for projects and pair programming throughout the duration of the course.

Group project - Scan-N-Pan - For our group project, We successfully created a recipe app, in which a user could input an ingredient list by either entering an ingredient manually or scanning the barcode of their item and our app will serve the user with a list of recipes including all the ingredients in their list. We used Agile Methodology to manage our project, React Native to render and navigate through our app, Expo to test our app, Firebase for our login authentication and database.

Feb 2020 - June 2022 **Meridian Apartments, Bradford**
Assistant Manager

My responsibilities at Meridian Apartments were

- confirming bookings with security checks followed by authorising payments
- organising cleaning rota and quality checking cleaners
- covering reception and checking guests in and out
- managing stock

Dec 2018 - Feb 2020 **Uber, Leeds**
Driver

June 2018 - Dec 2018 **Blue Arrow Agency, Edinburgh**
Mortgage Consultant - Lloyds Banking Group

I received six weeks of intense training on the entire mortgage process and was later moved to the administration team. My duties included

- verifying applicant's identity and ensuring affordability
- booking property valuations
- creating mortgage illustrations followed by sending out full mortgage offers
- communicating with mortgage brokers and solicitors throughout the process
- closing accounts and sending out closed account letters
- producing cheques and making payments
- sending out written confirmation to customers of interest rate changes
- making outbound calls (i.e. to verify references)

Dec 2016 - April 2018 **Uber, Leeds**
Driver

July 2010 - Oct 2016 **Chicken Hut, Brighouse**
Manager

May 2006 - June 2010 **Piccos Pizzas, Brighouse**
Supervisor

my responsibilities at Chicken Hut, Piccos Pizzas and Uber were

- managing high standards of customer service
- ensuring correct food handling procedures are followed at all times
- management of employee rota
- responsible for ordering and managing stock levels
